

## **Ellsworth Public Library Epidemic & Library Health Emergency Policy**

### **I. Purpose**

To establish a protocol that may be used in the event of a pandemic or declared public health emergency. The library should plan for staff being unable to report to work in the event of a serious infectious disease outbreak. In addition, during an epidemic or health emergency organizations may be required to take measures to help slow the spread of illness, such as closing by order of the President of the United States, Governor of the State of Wisconsin or Pierce County public health officials. It is important to ensure that essential business activities of the library can be maintained with limited staff and reduced hours as determined by the Library Director.

### **II. Definitions**

This plan differs from a general emergency preparedness policy or procedure. With an emergency preparedness policy, there is an assumption that staff will return to the building or begin recovery work almost immediately after the event or crisis (such as after a fire or storm). If there is a serious infectious disease outbreak, recovery may be slow and limited staff, services and hours may be necessary for several weeks or more.

Epidemic – A disease affecting many persons in a specific locality at the same time, and spreading from person to person in a locality where the disease is not permanently prevalent.

Library health emergency – The state of affairs in which there are not enough healthy library staff to maintain normal hours of operation.

### **III. Library Closure**

The Ellsworth Public Library may temporarily close because of an epidemic or library health emergency in the event that any of the following occur:

- The Village of Ellsworth offices close because of a health emergency
- A mandate, order, or recommendation for closure is issued by the state library division, public health, or other government officials
- The Ellsworth Community School District (ECSD) closes schools because of an epidemic

At the discretion of the Library Director, the Ellsworth Public Library may temporarily close, reduce its operating hours, or limit services temporarily in the event that there is insufficient staff to maintain basic service levels.

In the event of closure, due dates and holds pickup dates for library materials will be adjusted so that no overdue charges are assessed and holds do not expire on dates in which the library is closed.

The Library may reopen to the public even if ECSD schools remain closed if cleared to do so by the Wisconsin Health Department or Pierce County Public Health Department.

#### **IV. Minimum Staffing Level to Remain Open**

If Pierce County public health officials allow public facilities to remain open during or to reopen following a public health emergency, the library must maintain a minimal level of staff in order to be open to the public. An inability to maintain a temporary minimal level will result in reduced hours or closing the library.

The absence of healthy library staff will determine the ability to carry out services and maintain open hours. At the library director's discretion, this may include:

- Cancelling programs and special events.
- Reassigning employee duties and shifts.
- Reducing open hours if the number of employees falls below minimum levels.
- Closing the library for one or more days.

If the library is open, employees are expected to report to work on time as scheduled, excluding any absences following the library's sick leave policy. In the event of sudden closure and healthy library employees are sent home from work, those employees shall be compensated for their regularly scheduled hours.

#### **V. Communication**

Any changes in the library's open hours to the public will be communicated via the library's website, social media accounts, media contacts, and phone messages.

#### **VI. Patron Behavior**

Safety of our patrons and staff is our number one priority. The Ellsworth Public Library is taking precautions to help prevent any exposure or infection but cannot guarantee that the library is virus free. Anyone not following established safe policies set forth may be asked to leave the facility. If you or members of your household are not feeling well, please remain home for the safety of everyone.

- A face covering is highly encouraged for anyone over the age of 2, unless a medical condition prevents its use.
- Six feet social distancing must be maintained with anyone who is not a member of your household.
- Patrons should wash hands and/or use hand sanitizer prior to entering the library, before and after using computers, and after contact with high touch areas.
- Prolonged socializing is not permitted at this time.
- We will operate at a reduced capacity to comply with social distancing requirements.
- Restrictive tape or barriers of any kind may not be removed to accommodate access.
- Time limits for scheduled appointments and internet access will be enforced.

## **VII. Prioritization of Services**

If reduced staffing, hours, or services are required, employees shall perform priority responsibilities that most directly impact customers prior to any other work tasks.

Priority responsibilities shall follow this order, with safety being a priority:

1. Communicate with customers, stakeholders, local officials, and vendors about changes to library services
2. Submission of payroll, processing bills for payment, preparing for and holding Library Board meetings
3. Secure ability for staff to work remotely
4. Ensure online and digital resources are accessible
5. Processing incoming and outgoing holds
6. Direct customer assistance, e.g. checkout, issuing library cards, computer and information assistance

Individual responsibilities outside of those described shall be completed after prioritized tasks if time permits, performing those duties with a deadline or significant impact first. Employees should consult with the Director or designated administrative authority to determine staffing area assignment and which individual work tasks should take priority, or in the event that they feel a responsibility not listed here requires urgent attention.

Temporary amendments to existing circulation and services policies might include:

- Reduced hours when the library is open to the public, to allow for more thorough cleaning, quarantining, and shelving, as well as limiting exposure
- Reduced hours for returning materials and accessing book drops
- Dedicated hours for higher-risk individuals
- Limited services available by appointment only
- Time limits to remain in the library
- Continuation of alternative services, to help mitigate the demand for in-person services, such as robust virtual programs and services, curbside service, books by mail, contactless home delivery, and take-out materials orders

## **VIII. Personnel**

The Ellsworth Public Library is taking precautions to help prevent any exposure or infection but cannot guarantee that the library is virus free. Staff shall comply with all requirements outlined below.

- Staff shall not report to work when sick
  - Staff are encouraged to monitor temperature prior to coming to work.
  - Staff members who have any symptoms consistent with an outbreak will not be allowed to work.
  - Staff members living in a household where individual members have symptoms (either untested or tested positive) consistent with an outbreak will not be present in the workplace.
  - Staff with a confirmed exposure should self-quarantine for 14 days.
    - The requirement for a doctor's certificate shall be waived.
  - Staff with a confirmed diagnosis shall not report to work until cleared by a medical professional.
  - Staff members who have recently traveled outside of the community and engaged in activities that compromise social distancing should self-quarantine for 14 days after the most recent travel.
  - All staff are expected to telework during self-quarantine periods unless they themselves are sick and unable to work.
- Staff must maintain social distancing with other staff and users of the library except for immediate family.
- Staff shall wear masks or face coverings at all times when interacting with the public.
- Staff must wash hands with soap and warm water and/or use hand sanitizer, frequently. At a minimum, this must include: at the beginning of each shift, before interacting with other staff, customers, or work surfaces; when switching tasks; before and after short breaks and lunch breaks; after direct physical interaction with customers, staff or others; and when hands are visibly soiled.
- Adjustments may be made to work environments, such as teleworking, depending on public health recommendations.
- Accommodations will be made for staff in high risk situations (either staff or family).
  - Limit or eliminate patron interaction
  - Provide work from home option

## **IX. Responsibility for Library Operations**

If, for any reason, the Library Director is unable or unavailable to perform the responsibilities and decisions outlined in this policy, administrative authority for this policy and all library operations shall fall to the Library Board President.

Adopted: June 18, 2020
